SUMMARY

Senior Frontend Engineer with 10 years of experience building scalable web applications with React, Next.js and TypeScript, including 5+ years working for international companies. Led frontend teams, set up architectures and design systems from scratch, and shipped products in AI, fintech, HR tech, mining, travel and global luxury e-commerce.

EXPERIENCE

Senior Frontend Engineer
Sep 2024 — Present

Indico Data

- Architected and maintained the frontend application, ensuring performance, scalability and seamless integration across various AI models.
- Implemented interactive user interfaces that support document automation workflows, improving data visualization and user experience.
- Created proofs of concept to test and validate AI features, enabling iterative improvements based on user feedback.

Tech: React, TypeScript, Apollo Client, React Router, Storybook, Jest, Sass, CSS-in-JS

Frontend Lead
Feb 2024 — Jul 2024

Confidential (AI hiring platform)

- Led the frontend team of 4 engineers.
- Set up new standards for the application.
- Upgraded Next.js and adopted new patterns such as the App Router across the entire application.

Tech: Next.js, TypeScript, Apollo Client, React Query, Axios, Tailwind, Storybook, Jest

Sole Frontend Engineer
Oct 2022 — Feb 2024

Softensity (confidential fintech client)

- Solely responsible for front-end development since day one, defining all development standards and the architecture.
- Worked closely with the back-end team to ensure seamless integration and system alignment.

Tech: Next.js, TypeScript, Storybook, Jest, Sass, Axios, Docker, ESLint

Frontend Engineer
Oct 2021 — Oct 2022

Stadium Goods, Thom Browne and 3.1 Phillip Lim

- One of the front-end developers of a large-scale global e-commerce platform.
- Implemented features with a strong focus on internationalization and SEO best practices.

Tech: React, Redux, TypeScript, React Router, Axios, Sass, Jest, ESLint

Tech Lead
Jan 2021 — Sep 2021

Magnetis (acquired by BTG Pactual)

- Promoted to Tech Lead in less than 3 months at the company.
- Led the Referral squad, a team of 5 people.

Tech: Next.js, React Native, TypeScript, Redux, Axios, CSS-in-JS, Sass, Storybook

Frontend Engineer
Dec 2018 — Dec 2020

Modular Mining (Komatsu)

- Implemented and maintained micro-frontends.
- Rewrote a legacy desktop application as a new web-based system with global impact.

Tech: React, Redux, TypeScript, React Router, Micro-frontends, Storybook, Axios, Sass

Frontend Developer

Apr 2017 — Nov 2018

MaxMilhas

- Sole frontend developer responsible for Black Friday 2018, the company's most important event, and everything ran smoothly.
- Contributed to rewriting the system from AngularJS to React.

Tech: React, Redux, AngularJS, JavaScript, React Router, Axios, Sass, Jest

SKILLS

Core: React, Next.js, TypeScript, JavaScript, HTML & CSS
State & data: Redux, Zustand, React Query, Apollo / GraphQL, Axios
UI & design systems: Tailwind, Sass, CSS-in-JS, Storybook, Design systems
Quality: Jest, Vitest, Testing Library, ESLint, Prettier

Architecture: Micro-frontends, i18n, SEO, Accessibility, Performance

EDUCATION

MBA, Software Architecture Feb 2024 - Aug 2025
Full Cycle

Bachelor's degree, Computer Information Systems Jan 2018 - Jun 2021
Estácio, GPA 4.0 (96%)

Bachelor's degree, Systems Engineering 2014 - 2017
Universidade Federal de Minas Gerais (UFMG)

LANGUAGES

Portuguese: Native English: Full professional proficiency

OPEN SOURCE

HealthSchedule · github.com/pleaobraga/health-schedule
Monthly shift and on-call schedule manager for healthcare teams. A rule engine audits labor compliance in real time (rest periods, weekly limits), with shift pricing, monthly payment reports and multi-sheet Excel exports.
Tech: React 19, TypeScript, Zustand, Firebase, Tailwind, Vitest, Storybook

LEADERSHIP & TEACHING

- **Frontend Lead (2022):** Hired to build a new product from the ground up. I set up the entire frontend architecture and was the only frontend developer for over a year.
- **Tech Lead (2021):** Promoted to Tech Lead of the Referral squad at Magnetis three months after joining.
- **Teacher at Let's Code (2021):** Part-time frontend teacher at Let's Code, a company that trains new developers.
- **Mentoring (2020):** Started mentoring a group of people beginning or growing in frontend development.
- **Talks at Gama Academy (2019):** Invited to speak about frontend development and share my experience at Gama Academy events.
- **University tutor (2015):** Tutored students in Algorithms and Data Structures using C at UFMG.
